Sam turned her around to face away from him. He embraced her from behind. His head lowered to rest on her shoulder, one hand coming around her to grope her breast, the other reaching down to pull up her dress. She tried to protest. "Sam, what are you doing? We can't go so far, we're in the library. Someone could walk in." But her whispered protests went un-headed. He was in full control of her now and she loved it.

"Don't worry, no one's going to see us." His hand got under the dress and touched her silk panties. As his fingers rubbed so close to her vagina, Tabby became more and more excited. To actually feel the touch of a man there was incredible. She quietly allowed him, savoring the feelings rushing through her. His fingers snuck between her legs. He began massaging her pussy through the panties, pushing against her clit. Now the feelings shocked her. Her mouth gaped as pleasures zapped through her.

"Oh Sam, keep going. I love that." she whispered in her best librarian voice. Her praise coaxed his hands to go further. He found the band of her panties and moved his hand in between it and her skin. The contact of his skin against her most sensitive area sent shivers through her. He pushed his fingers deeper into her panties, through the mass of fuzzy hair, until he found her pussy. Using two fingers, he parted her hot lips. They were already seeping with love juices.

"Oh, you're already excited, aren't you?"

"Yes... you make me so excited, Sam."

He rubbed the tip of his index finger around the inside of her pussy lips, making it wet. Then he moved up and began rubbing over her clit with a circular motion. The lubrication made the feelings even more powerful. Tabby's brow furrowed and her mouth gaped as she took the pleasures in. She moaned from deep within her throat. His movements against her love button quickened. Her legs buckled but his strong arms held her up.

"Sam, I can't take anymore."

He whispered hot words into her ear. "No, you're gonna take more... like it or not."

His commands sent chills up her spine. They made her pussy even wetter.

He pulled his hand from within her panties. Sneaking both hands under her dress, he pulled them down. They slid down her slender legs to rest on the floor around her high heels. Then he pointed to the floor. "Lie down." She did as she was told. Sam knelt down

in front of her. He took her legs in each hand, parting them, lifting them up. Her dress fell onto her stomach, revealing her virgin pussy.

Pushing her legs hard against her body, Sam lowered his head between them. His tongue touched her vagina. Pure pleasure pulsed through Tabby's body. She looked down at him. To see a man's head between her legs was something she'd always dreamed about. To finally experience oral sex felt incredible. It was beyond anything the books could have described. His hot tongue licked across her clit as if it were a sweet lollipop. Each lick excited her more.

She squirmed on the carpet as he serviced her. He used his entire tongue to cover her pussy, stroking up over and over again. It was heating Tabby up. The feelings were building up inside her body, begging to be released. She no longer cared about the library or whether they'd be seen. All she wanted was for him to break her virginity. Spill it all over the carpet. To push his warm cock deep into her, stretch her out, and pound her insides. She was beginning to feel the climax throbbing under her skin. It was growing. She was shaking all over. Her muscles were tensing. The more his tongue ravaged her, the more powerful it felt.
